LOFT

This brochure marks a significant investment into product development, infrastructure and photography at LOFT Interiors.

The business has organically grown into three departments; Next Day (removal and replacement), Student Furniture and Furniture Packages, with each department offering an essential, specialised service level and a bespoke product range.

LOFT oversee procurement, importation, warehousing, distribution and installation (to schedule) on behalf of our partners.

All operational and logistical headaches associated with furniture importation, delivery and installation are professionally managed, adding real value to any business that utilises our expertise and capability.

Our after care solution is second to none, it is our duty to help maintain and replenish stock, protecting our client's investment.

LOFT Interiors are growing quickly and we are re-investing strategically for the future - we deliver.

Ben Hall
Director
LOFT Interiors

The platform for success

Procurement

LOFT offers our partners a bespoke global procurement service.

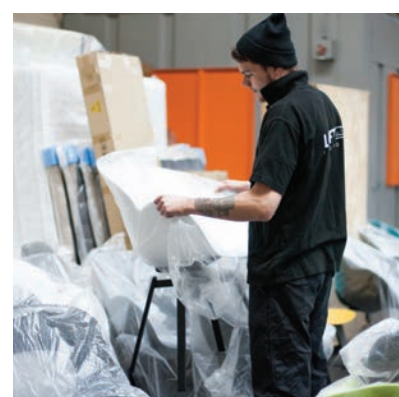

Warehousing

With UK warehousing encompassing 40k sq-ft, LOFT are able to import and hold stock for immediate call off to schedule.

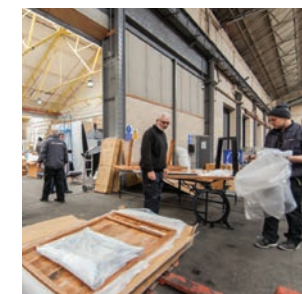

Distribution

LOFT provides a national delivery / distribution service using our in-house fleet of vehicles.

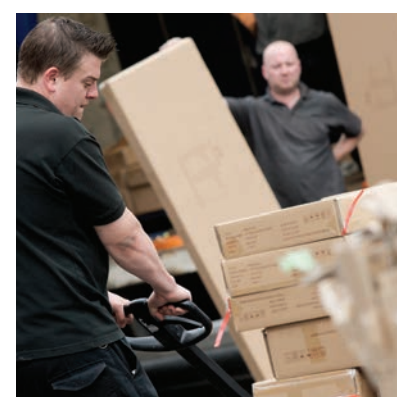

Next Day

A NEXT DAY delivery service is also available, covering all major cities from Birmingham to Leeds.

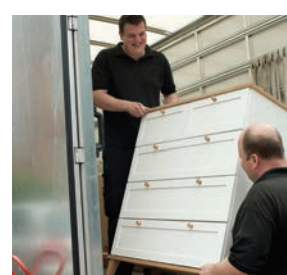

Installation

LOFT's fully insured, professional, uniformed and experienced installation team are all CSCS accredited, providing an efficient service from brief.

Aftercare

LOFT offers a long-term after care solution, with a dedicated department prepared to go the extra mile for our partners.
